DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the variables "n" and "k" are not properly identified. For example, these variables require further explanation with regard to whether they are integers and/or what relationship exists between the two variables, especially since they are both contained in a common expression (n-k). Further, does this expression n-k represent n minus k, or from n to k? Appropriate action is required.

Regarding claim 2-10, claim 4 is substantially similar to claim 1 and claims 2-3 and 5-10, by virtue of their dependency thereon are also rejected.
